Subject: Lynn Canal Highway

Dear sirs:

I am writing in support of the Lynn Canal Highway. The full funding of this project should occur sooner than later. If only the residents of this state knew the full operating costs of the current ferry system, they would be appalled. The project itself could be financed by the costs it saves each year. With increasing costs of fuel and other materials, this project will only become more costly over time. Therefore, this project should be put at the forefront for priorities so that the state can begin to save money as soon as possible. Obviously it is only a savings if the road is fully completed, so lets get this project done in a timely fashion so that our money can be better spent elsewhere.
